

Multiple Registration Information

MABE Annual Conference for Dual Language Education Programs

Multiple Registrations for Small and Large Group Registrations:

One person can register and pay for multiple attendees. The leader of the group should register first. Then click "Add guest" to register the additional participants in the group. A full event registration form appears for the guest. The lead registrant will be required to include contact information for each guest added.

Each time the lead registrant adds another "guest", they will see a summary of all the guests they have entered. After the lead registrant clicks the "**Done**" button, they will see a summary of the group registration. The summary includes the fee structure for the type of group registration.

Small Group Registration is for the lead registrant plus 4 additional "Guest". MABE will notify the Lead Registrant of the code to register one parent at no cost.

Large Group Registration is for the lead registrant plus up to 9 additional "Guest". The final registration summary includes the discounted fee structure for this group registration.
